

Dear APSA members,

We would like to invite you to participate in the **Asia-Pacific Sepsis Alliance (APSA) Critical Care Resources and Disaster Preparedness Survey**

<https://www.surveymonkey.com/r/APSASurvey>

This is a survey to obtain information about human, technical, therapeutic, clinical quality and disaster preparedness resources across the Asia-Pacific region.

Key points:

- The survey will be conducted twice i.e.
 - First in regard to the period leading up to the peak of the current COVID-19 pandemic with completion due by **COB 29 May 2020**
 - Second in regard to the period after the peak of COVID-19 pandemic activity (a new survey link will be sent out)
- The survey takes approximately 7 to 8 minutes to complete
- Ethics approval has been obtained from The Chinese University of Hong Kong, all data will be confidential and deidentified and participation is voluntary
- We would greatly appreciate you also distributing the survey link to a contact person in at least 1 tertiary/academic centre, 1 regional hospital, 1 district/community hospital (or equivalent) and 1 private hospital in your country for completion.

We understand the high demands on your time due to clinical and profession responsibilities, and other research activities.

On behalf of the APSA Executive and Workgroup Leads, please accept our sincere gratitude in advance for your participation and support for this research.

For any questions on the items above or anything else related to the Global Sepsis Alliance, please contact Marvin at any time.

Thank you and stay safe,

Konrad Reinhart & Marvin Zick,
on behalf of the whole GSA Team
